Education

Shanghai Jiao Tong University (SJTU), Shanghai, China 2023.9 – 2027.6 (expected)

B.S. in Computer Science, ACM Honors Class
Zhiyuan Honors Program (Top 10%)

Experience

Generative Artificial Intelligence Research Lab, SJTU 2025.7 – Present

Researching in Large Language Models (LLMs) and Multimodal Large Language Models (MLLMs), focusing on context engineering, post-training, fine-tuning, and enhancing model capabilities, under the supervision of Prof. Pengfei Liu.

Publications

Only publications with higher author ranking are listed.

Context Engineering 2.0: The Context of Context Engineering

Qishuo Hua, Lyumanshan Ye, Dayuan Fu, Yang Xiao, Xiaojie Cai, Yunze Wu, Jifan Lin, Junfei Wang, Pengfei Liu
arXiv:2510.26493 | *ICML 2026 Under Review* | *NeurIPS 2025 Workshop PersonaNLP Oral (non-archived)*

</> Selected Projects

Each project listed was crafted solely by myself and from scratch. No AI tools were used, except for documentation purposes.

RISC-V Out-of-Order Execution CPU | CPU, FPGA, Verilog, RISC-V [GitHub]

Designed an FPGA circuit of a RISC-V (RV32I instruction set) out-of-order execution CPU using Tomasulo algorithm, written in Verilog, tested on AX7035 board.

Mx Compiler | Compiler, LLVM IR, RISC-V, Java [GitHub]

Engineered a compiler that compiles a C-and-Java-like language Mx* to LLVM Intermediate Representation and RISC-V assembly (RV32M instruction set), written in Java. Its performance is comparable to Clang (with mem2reg and regalloc). Implemented Mem2Reg, and the registers are allocated using the Linear Scanning Algorithm.

Teaching Experience

Large Language Models, *Teaching Assistant* 2025 Autumn, 2026 Spring
Great Ideas in Computer Science, *Teaching Assistant* 2025 Spring

Honors and Awards

Zhiyuan Honors Scholarship 2023, 2024, 2025

Student Work

Vice Monitor of ACM Honors Class 2023 2023.9 – 2024.9, 2025.9 – Present

Skills

- Programming: C++, Python, Go, Java, Verilog
- Tools: Git, Markdown, LaTeX
- Languages: Chinese (Native), English (Fluent, CET-6 608)
